# TK Security Group

LINE SHEET

MAY 2007

## LINES REPRESENTED

TK Security Group Territory

*TK Security Group is a "Solutions Driven" company. We will help design the proper Solution for the defined requirements with an experienced sales staff that can help in defining Security System Parameters and configuring the Electronic Solution.*

**Cypress** Weigand interfaces to multiple formats. Suprex Technology allows any standard card reader and associated peripherals to be controlled by access control panel in remote location

**Designed Security, Inc. (DSI)** Optical Turnstiles, Full Height Mechanical Turnstiles, Door Management, Tailgate Detection, Alarm Products and Annunciator Products.

**Digital Infrared Imaging** (an ICx Company) Thermal Imagers - Views heat in Field of View in lieu of Video. Combo (Analog and Thermal) units are available. Matched with sister ICx Company can utilize Radar in conjunction with Thermal to provide Detection and Assessment on Amn Size Target up to ONE Mile in diameter.

**DV Tel** ENTERPRISE integrated Security Operations Center (iSOC) Network Digital Security including the ability to Manage Video, Data, Access Control, PLC Logic, Audio, View and Record PC Screens, Stitch Video Signals together to view as one image. Full line of "Security Quality" IP fixed and PTZ Cameras.

**Fiber SenSys** Exerior Intrusion Detection Systems for Fences, Fiber or Copper based. Level 1 Network Protection -- Detects activity/tampering with Networks from a physical standpoint.

**Inex** Technology that allows the capture of license plate data and other information from passing vehicles in real-time. Inex also provides for the integration of this data with other applications.

**International Fiber Systems (IFS)** Fiber Optics Modems for Video, Data, Audio. Newly released EtherNav Product Line for IP/Ethernet Applications. CopperLine modems for UTP Applications, Powered Receivers will interface with other UTP Transmitters on the market. ALL IFS Quality Equipment carries a LIFETIME WARRANTY.

**Receptors** Access Control Software, readers, embedded encryption to give the highest level of security. Expandable to fit any size operation - self contained or networking several locations across town, the state, or the world.

**Sanyo** CCTV - Cameras, Controllers, DVR's, Housings, Vandal-Resistant Dome Cameras, Pan Focus, PTZ's, Casino Recorders, VCR's, Monitors and Rack Mounts.

**Security Door Controls (SDC)** Locking Hardware and Door Management Systems. EM Locks, electric strikes, Delayed Egress Systems, ADA approved Release Bars, electrified hand sets, door release equipment.

**STR** Manufacturer of high quality, commercial/industrial security equipment specializing in Microwave Perimeter Protection Systems.

**VisualGate** Utilizing existing AC powerlines to install or upgrade existing CCTV cameras into IP Network.

*" TK Security Group Associates  
have 60+ collective years  
experience in Security Systems  
Design and Implementation."*
